

FRENCH PROVINCIAL WEDDING INSPIRATION WITH A SECRET GARDEN VIBE

France Wedding Inspiration
By Magnolia Rouge

With a secret garden like feel to it, this stunning shoot by AMELIA CLAIRE PHOTOGRAPHY is my new favourite! Sure snails are not what you immediately think of when it comes to wedding inspiration but the point is to tell a story and stylist JANNA BROWN is a magician at it. Your wedding day should tell your story, whatever that may be. And if it just so happens to be French based, then hey, snails work! The paper goods by LINEN & LEAF are so beautiful, and the way they're styled is impeccable! The stunning DOMAINE LES MARTIN in the Luberon Valley offered so many beautiful scenes for this inspiration to unfold and a dreamy CATHYTELLE wedding gown was perfectly at home.

Part of a workshop with KATIE GRANT PHOTOGRAPHY, AMELIA tells us, "Our goal for this photo session was to capture something beautiful, timeless but also a little different. How could you go wrong- captured at the most stunning provincial venue in the south of France just outside of Gordes and incorporating lace, florals, delicious french bread and snails. This day was a dream!"
